Who We Are

UNFILTERED San Antonio aims to bridge the gap between artists, art professionals, and art spaces through the collection and exploration of the material and visual culture of San Antonio's contemporary art scene. We invite the community to redefine accessibility to the visual arts and engage local talent. We're committed to providing a platform for emerging, censored, and underrepresented voices to share their story -- authentically and unfiltered.

Who We Want

UNFILTERED SA seeks writers who can write articles pertinent to our audience in an entertaining, concise style. UNFILTERED SA writers must exhibit a thorough knowledge of their subject matter, as well as the ability to incorporate the character of the creative(s) about whom the article is written. We also request that you be accurate, prompt, and most importantly willing to probe below the surface to develop an article that is of benefit to readers rather than a puff piece.

Helpful Tips

- We strive for geographic diversity and are always interested in covering different spaces throughout San Antonio.
- Be your authentically and unfiltered self.
